### INDUSTRY EXPERT ARTICLE

## Construction Safety

Increase your employee's awareness of fall hazards and fall prevention across the construction industry.

**FACT:** According to the Bureau of Labor Statistics, a worker died every 111 minutes from a work-related injury and a total of 4,764 fatal work injuries were recorded in the US in 2020.

This week as the country focuses on raising awareness of the need for fall prevention, we wanted to share valuable insights into ways to prevent slips, trips and falls and also highlights the financial and human costs of neglecting proper fall prevention.

#### SAFETY TIP

## FALLS FROM HEIGHT CAN BE PREVENTED.

Do not disconnect from the lifeline or use defective equipment. Always wear your harness and stay connected. Get the job done safely by planning ahead, providing the right PPE and equipment, and training everyone on how to inspect and use the equipment safely.
