

ARBILL NEWSLETTER VOL. 011

ASTM Standard F3502 for face masks announced on Tuesday, February 16

The announcement has been covered by major news outlets and explains a bit more about what to expect. Notably, this standard, which applies to non-medical face masks, sets guidelines for breathability and filtration efficiency, along with requirements for design, performance, labeling, and user instruction.

- [Read More from CNN Here](#)

Understanding the new ASTM standard and how it will impact your purchase decisions is of utmost importance and having the right face masks available will never be of greater interest. Arbill's Safety Advisors can help you determine the right masks for your corporate needs.

Winter Safety Tip:

Snow removal can be strenuous, particularly because cold weather can be taxing on the body, and can create the potential for exhaustion, dehydration, back injuries, or heart attacks, and can increase the risk of falls.

Take frequent breaks and drink fluids (avoid caffeine or alcohol).
