

MOLDEX Ideas that wear well. **TouchFree EcoStation®**

TouchFree EcoStation®
A Hygienic Solution to Earplug Dispensing

Hearing protection has never been easier to access. Simply place your hand under the automatic dispenser and a pair of earplugs will drop right into your palm. With the TouchFree EcoStation® in your corner, you can eliminate touch points and choose a greener, cleaner workplace for all.

- First ever touch free solution for earplug dispensing
- Built in sensor recognizes when a hand is underneath and dispenses a pair of earplugs
- The most hygienic way to dispense earplugs
- Battery operated - Easy to install with no wiring needed

SAFETY TIP:
REDUCE YOUR NOISE EXPOSURE
Always wear hearing protection in noisy areas, and if using foam plugs, insert them correctly into the ear canal.

1. ROLL
Create a small, thin snake like shape.

2. PULL
Pull the top of your ear up and back to slide the ear plug in.

3. HOLD
Wait until the ear plug expands to fill your ear canal.

Check that they are fitting properly. When they are properly placed and a seal has been created, your voice will sound muffled.
