

INDUSTRY EXPERT ARTICLE

**Protect Your Eyes
with Eye Protection-
There's No Reason Not To!**

Some may feel safety glasses or goggles are a hassle to wear and not necessary. That notion is incorrect. In fact, eye protection is extremely crucial to your overall protection in the workplace.

According to OSHA, there are an estimated 1,000 eye injuries in the workplace occurring daily.

So, what causes all these daily eye injuries? The answers are alarming. Three out of every five workers' injuries could have been prevented, as they lacked eye any type of eye protection at the time of the accident.

SAFETY TIP:

**SELECT THE PROPER
EYE & FACE PROTECTION**

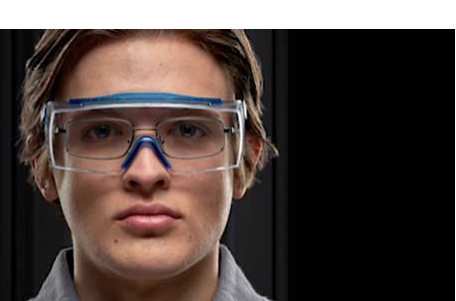

Did you know that selecting proper eye and face protection for your employees directly correlates to the hazards they are exposed to?

When choosing eye & face protection, take account of any singular issue or any combination of the following:

Impact, Penetration, Compression, Chemical, Heat, Dust, Light, Radiation

Designed with you in mind.
