Click <a href="here">here</a> to make your team safer now!

There are many things you can do to make sure workers are practicing good safety habits and keeping themselves out of harm's way including:

• HIGH VISIBILITY CLOTHING

High visibility clothing is an important safety precaution in many areas and wearing the required

The right kind of safety shoes are critical in preventing foot injuries. The key safety feature that safety shoes have to prevent injuries is a steel toe. The steel toe helps protect your feet from folling chiests, and they should always be ween in departure work areas.

tiredness and increase worker productivity.

work environment.

falling objects, and they should always be worn in dangerous work areas.

• ANTI-FATIGUE MATTING

While there are no specific regulations for anti-fatigue mats, they are an important tool. Anti-fatigue mats can help to maintain proper posture, adequate blood flow in your legs, help fight

clothing makes it so much easier for people to see the workers and lowers chances of injuries
